

# SpotLaser

## Miniature Lasers

-Measuring & Scaling  
-Surface & Corrosion Inspection

The SpotLaser serie is available as dot or line generator and can be used as measuring device together with underwater cameras, typically by two parallel-mounted lasers.

### PERFORMANCE

Laser	Solid state laser	
Beam type	Dot or line	
Beam color	Red	Green
Wavelength	635 nm	530 nm
Beam divergence	<0.5 mrad	
Output Power	10 mW	10 mW

### ELECTRICAL

Operating Voltage	12 or 24 V
Operating Current	410 mA

### MECHANICAL

Housing	Alum 6082 T6	Stainless steel 316
Window	Optical acrylic or BK7	
Connector	MCIL2M	
Diameter	30 mm	30 mm
Length	130 mm	130 mm
Weight in air	220 g	605 g
Weight water	130 g	340 g

### ENVIRONMENTAL

Rated Depth	4000 m (6000 m optional)
Operating temp .	0°C to 40 °C Water
Storage temp.	0°C to 60°C
